

# THE 2010 GENTNER SYMPOSIUM: H<sup>+</sup> MOBILITY IN CHEMICAL AND BIOLOGICAL SYSTEMS

## Invited Speakers

Huib J. Bakker (Amsterdam)  
Ernst Bamberg (Frankfurt)  
Kankan Bhattacharyya (Kolkata)  
Qiang Cui (Madison)  
Bertrand Garcia-Moreno (Baltimore)  
Ricard Gelabert (Barcelona)  
Robert B. Gennis (Urbana)  
Klaus Gerwert (Bochum)  
Gerrit Groenhof (Göttingen)  
Helmut Grubmueller (Göttingen)  
Menahem Gutman (Tel Aviv)  
Joachim Heberle (Bielefeld)  
Volkhard Helms (Saarbrücken)  
Gerhard Hummer (NIH)  
James T. Hynes (Paris)  
Carola Hunte (Leeds)  
Dan Huppert (Tel Aviv)  
Wolfgang Junge (Osnabrück)  
Soren R Keiding (Aarhus)  
Amnon Kohen (Iowa City)  
Daniel J. Müller (Dresden)  
Eric T.J. Nibbering (Berlin)  
Michael G. Palmgren (Copenhagen)  
Ehud Pines (Ben Gurion University)  
Klaus Schulten (Urbana)  
Steven D. Schwartz (New York)  
Kyryl M. Solntsev (Georgia Tech.)  
Eckhard Spohr (Duisburg-Essen)  
Mark E. Tuckerman (New York)  
Andrei Tokmakoff (MIT)  
Gregory A. Voth (Utah)

*We are pleased to announce that the 2010 Gentner symposium on "Proton Mobility in Chemical and Biological Systems" will take place at the Ma'agan Holiday Village on the southern shore of Lake Kinneret (Israel).*

## Feb 7-12, 2010

Our goal is to bring together experimentalists and theoreticians, physical chemists, biophysicists and material scientists, established and young scientists, who are involved in the various facets of proton transfer and proton transport phenomena in chemical and biological systems. We encourage faculty and students to register and to submit abstracts for poster presentations (a limited number of abstracts may be selected by the Organizing Committee for oral presentation). Stipends are available on a first come/first serve basis. Please see registration and abstract submission information at the conference site.

### Organizers

Noam Agmon and Isaiah (Shy) Arkin  
The Hebrew University of Jerusalem, Israel.

### German co-organizers

Klaus Gerwert (Ruhr-Universität Bochum)  
Helmut Grubmüller (Max-Planck-Institut für biophysikalische Chemie)
